# Cogne Acciai Speciali Group represents the worldwide accredited brand for stainless and special steel products

Its mission is to specialize in niche markets and to respond professionally to all the needs of its customers. Through its R&D centre and technical expertise, the Aosta Valley mill has managed to diversify its production and offers a unique range of high level products, in accordance with the highest international standards. In an extremely competitive business, Cogne by its experience and applied R&D translates into top quality, reliable products using modern production equipment.

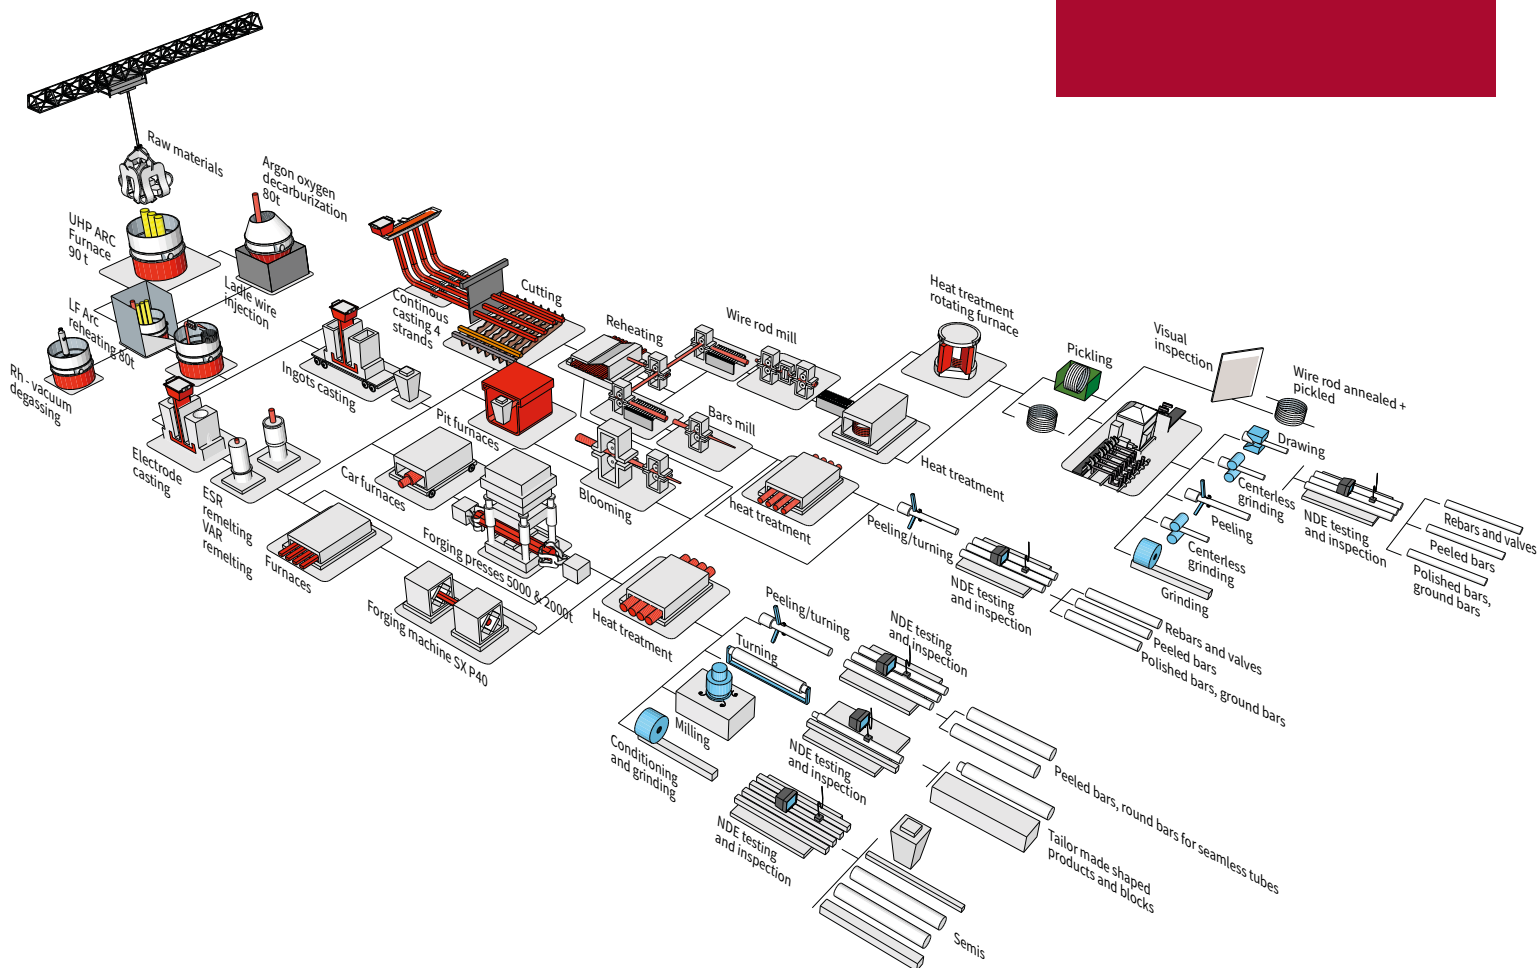

In the pursuit of the highest quality standards and product reliability, Cogne has always invested in both human and technological resource.

One Cogne: channeling the power of together to create a better future.

Cogne Acciai Speciali renews and forges its commitment towards people, the environment, its local community and respect for human rights.

## THE MAIN PRODUCTION FACILITIES of the Aosta plant

# Quality, Environmental and Safety Management System, Process Accreditation and Product Certification

Customer Satisfaction is part of Cogne Acciai Speciali Mission; therefore the Quality Management System has been designed according to different Standards to which Cogne Acciai Speciali is complying: UNI EN ISO 9001:2015, IATF 16949:2016 and UNI EN 9100:2018. In addition, Cogne Acciai Speciali Environmental and Safety System are certified according respectively to UNI EN ISO 14001:2015 and UNI ISO 45001:2018.

Cogne Acciai Speciali is accredited according to NADCAP for heat treatment as well as to ASME NCA 3800 – Part III for nuclear productions and the Chemical Laboratory is accredited according to UNI CEI EN ISO/IEC 17025:2018.

## Stainless steels

*Austenitics, ferritics, martensics, duplex, precipitation hardening steels (PH), superaustenitics*

- SEMI-FINISHED PRODUCTS  
Ingots 3,5 - 79 tons  
Rolled Square blooms 150 - 200 mm  
Forged Square blooms 250-800 mm  
Forged round blooms 110 - 1200 mm
- WIRE ROD  
Size:  $\varnothing$  5,5 mm to 31,5 mm;  
Execution: rolled, heat treated and pickled;  
Weight of coil: 1000/1400 kg
- BARS  
Size:  $\varnothing$  4 mm to 600 mm;  
Execution: rolled, cold drawn, peeled and reeled, centreless ground
- STAINLESS STEEL BARS FOR CONCRETE REINFORCEMENT REBAR (IN BAR OR COIL)  
Size: 6 - 12 mm = cold ribbed  
8 - 50 mm = hot rolled and pickled

## Nickel Alloys

Cogne Nickel Alloys, such as SN625 and SN825, are used in oil and gas industry, chemical processing, petroleum refining, aerospace and power generation plants.

## Aerospace

Cogne Acciai Speciali, EN9100 and NADCAP certified, offers a full range of stainless steel long products, forged and hot rolled bars, bright bars, wire rod for aero-structures and aero-engines, guaranteed by a complete and integrated supply chain.

## Automotive

- VALVE STEEL BARS  
Size:  $\varnothing$  5 mm to 19 mm;  
Execution: hot or centreless ground in martensic and austenitic steels.
- STAINLESS STEEL BARS  
Size:  $\varnothing$  4 mm to 600 mm;  
Execution: rolled, cold drawn, peeled and reeled, centreless ground.

## Special products

- SEAMLESS PIPE MILL TOOLS (mandrels)
- FORGED COMPONENTS for the oil and gas industry
